I- DEPUTY FOR OPERATIONS
ACCOMPLISHMENTS
A. IDEALIST

1. The IDEALIST program maintained an Operationally Ready 25X1

status with the capability of accomplishing the assigned mission: "To
conduct covert reconnaissance [redacted] over denied
and hostile territory, or peripheral reconnaissance on a world-wide
basis in support of intelligence objectives of the United States." Two
25X1 detachments, one at Edwards Air Force Base, California, and one at

25X1

[redacted] provide
a rapid reaction, covert capability to respond to fast developing world-
wide contingency situations. With its organizational structure, facilities,
and equipment in being and in operation, IDEALIST becomes a national
asset with an inherent value in its ability to fulfill national requirements.

25X1

This ability was reconfirmed in FY 1971 with the successful completion

25X1

of [redacted] peripheral missions off the coast of mainland China, a rapid
reaction deployment [redacted].

~~a requalification of selected pilots for carrier operations.~~ The program

25X1

is budgeted at approximately [redacted] and, as such, provides an
economical means of meeting certain photographic reconnaissance and
[redacted] needs in potential crisis environments.

d. Photographic [] missions []

25X1

25X1

area were conducted [] on the following dates in 1970:

11 August	6 October
14 August	10 October
18 August	15 October
22 August	18 October
27 August (2 missions)	23 October
	27 October
3 September	30 October
6 September	
8 September	1 November
10 September	4 November
13 September	5 November
18 September	6 November
21 September	7 November
24 September	10 November
27 September	
28 September	

25X1

A stand-down was directed which terminated operational []

area missions with the mission on 10 November 1970.

25X1

e. During the operation it was necessary to return one of the aircraft [] to Edwards AFB for phase maintenance and at the same time maintain a two aircraft operational capability. 25X1

A swap was effected as follows:

21 September 1970: One U-2 [] deployed
from Edwards AFB to []

25X1

25X1

22 September 1970: Aircraft [] continued on from []

7 October 1970: Aircraft 055 began return to Edwards

25X1

AFB for phase maintenance by initial deployment to [redacted]

25X1

[redacted]

25X1

8 October 1970: Aircraft [redacted] deployed from [redacted]

25X1

[redacted] to Edwards.

25X1

f. 13 December 1970: Two U-2s deployed from [redacted]

25X1

to [redacted]

25X1

g. 14 December 1970: Two U-2s deployed from [redacted]

25X1

[redacted] to Edwards AFB. This terminated the [redacted]

operation.

25X1

3. IDEALIST/TACKLE missions continued to operate in

accordance with the 40 Committee restriction that there would be no

25X1

approach closer than 20 nautical miles to the China mainland. All of

[redacted] missions flown in FY 1971 were successful.

a. Photographic missions were flown on:

24 July 1970	14 December 1970
29 July 1970	8 January 1971
18 August 1970	30 January 1971
6 October 1970	24 February 1971
21 October 1970	12 April 1971
5 November 1970	29 April 1971
23 November 1970	15 June 1971

8. Other projects which the IDEALIST resources have supported include:

- a. Hurricane Base Line Survey: This was a continuation of the project to provide a photographic base line of the southern United States for future hurricane damage assessment.
- b. Snow Survey: Provided photography for California water resources survey for the Department of Commerce.
- c. RED DOT: Continued to support the Color Task Force with photographic coverage of selected targets in CONUS. This provides comparison of color and black and white photography and assists in determining usefulness of various filters and film emulsions.
- d. Atmospheric Tests: These NRO directed missions were flown in support of photographic testing in New Mexico.
- e. Earthquake Photo: IDEALIST resources provided photographic coverage of the damage caused by the earthquake in Southern California during February 1971.

25X1

9. Overflight Ban: We continue to operate with the 40 Committee restriction requiring U-2 flights to remain at least 20 nautical miles from the Chinese mainland. Thus, the intelligence collection effort is limited to those facilities which can be photographed from a stand off position.
